#### FAQs

## Common Questions from Cambodia Buyers

Short, clear answers to help customers make confident decisions.

Do you provide LED display installation across Cambodia?

How do I choose the right pixel pitch for my project?

What brightness and IP rating are recommended for outdoor LED screens?

What is the difference between indoor and outdoor LED display?

Do you supply digital signage solutions for malls, hotels, and retail stores?

Can you integrate turnstile gates with RFID and biometric access control?

Do you provide PA system design and installation for factories and campuses?

How long does a typical LED display project take from survey to handover?

Do you offer warranty and preventive maintenance plans?

How can I get a quotation for LED display, signage, or access control in Cambodia?
