Empowered by International Development Partnerships

We have successfully delivered LED display, digital signage and smart technology solutions under projects supported by internationally recognized organizations including **The World Bank, JICA, Swisscontact, GIZ and Mitsubishi**. This proven experience reflects our ability to meet institutional standards, maintain engineering quality and execute large-scale projects with reliability and compliance.

Our Valued Government Clients

We have successfully delivered LED display, digital signage, scoreboard, and AV integration projects for government and institutional clients across Bangladesh.

LED Display & Digital Signage Projects Delivered in Bangladesh

- Indoor & outdoor LED display installation using NovaStar control systems
- Custom screen sizing, pixel pitch optimization & high-brightness calibration
- Scoreboard & PA/AV integration for sports and events (BKSP)
- Wayfinding and public information displays for municipal and government facilities
- Turnkey project delivery – design, engineering, installation & commissioning
- Post-installation maintenance, spare parts & on-site service support
